1/ Does not include irrigation assistance liability of $724 million at zero percent interest ($40.3 of this amount is for Lower Teton, for which the Administrator has no obligation to recover costs). “Liabilities” on this page do not directly relate to “liabilities” as reflected in the Combined Statements of Capitalization and Long-Term Liabilities.

2/ Appropriation amounts exclude appropriations for construction work still in progress (CWIP). 2008 CWIP for appropriations was $320.1 million.

3/ Transmission Services (TS) principal is different from the Federal repayment obligation due to: 1) premium bonds issued, 2) timing differences, and 3) transactions costs. TS is assigned the repayment obligation for these items, which equals the additional Federal prepayment made on TBL's behalf.

This information made publicly available by BPA in November 2008 and is consistent with BPA's FY 2008 Annual Report. Any variation is due to rounding.
