Subject: RE: BPA Request for Customer's BP-16 Rate Case Workshop Issues - Iberdrola Renewables

Iberdrola Renewables appreciates the opportunity to submit this request to add discussion of the DC Intertie Upgrade and Outage to future rate case workshops.

Given the scope and impact of this project, Iberdrola would be interested in further updates, including additional visibility around this project and a discussion regarding efforts BPA is undertaking or could undertake to minimize impact to customers.

Regards,
Erin Kester
