Docket No. BP-16

**Petition to Intervene of the City of Los
Angeles Department of Water and
Power**

In accordance with the Rules of Procedure Governing Bonneville Power Administration Rate Hearings section 1010.4, 51 Fed. Reg. 7,611 (1986), the City of Los Angeles Department of Water and Power (LADWP) hereby petitions to intervene as a party in the above-captioned proceeding regarding the Bonneville Power Administration (BPA) Fiscal Year (FY) 2016-2017 Proposed Power and Transmission Rate Adjustments Public Hearing and Opportunities for Public Review and Comment, noticed on December 4, 2014, 79 Fed. Reg. 71,984 (2014).

I. LADWP Petition to Intervene

The City of Los Angeles is a municipal corporation and charter city organized under the provisions of the California Constitution. LADWP is a proprietary department of the City of Los Angeles, California, with its principal place of business in the City, that supplies water and power to Los Angeles' inhabitants pursuant to the Los Angeles City Charter. LADWP is a vertically integrated utility that owns generation, transmission and distribution facilities. LADWP provides safe and reliable retail electrical energy to its

approximately 1.4 million customers, and also engages in the purchase, sale and exchange of surplus electric energy in wholesale electric energy markets.

LADWP has various firm point-to-point transmission service agreements with BPA under which LADWP pays BPA's then-current transmission rates. These rates are subject to revision for FY 2016-2017 in this rate proceeding in Docket No. BP-16. Therefore, LADWP has an interest in this proceeding, that cannot be represented adequately by any other party, and qualifies for status as a party to the proceeding as set forth at 79 Fed. Reg. at 71,988.

II. Communications

LADWP requests that all materials and communications relating to these proceedings be served on the following individuals:

John R. Dennis
Interim Director
Power System Planning & Development
