Subject: [EXTERNAL] BP-20 Gen Inputs
Date: Friday, May 04, 2018 4:26:01 PM

Seattle City Light appreciates the opportunity to comment on materials provided in BPA's BP-20 Generation Inputs Workshop. We look forward to receiving additional detail on these proposals and engaging in the BP-20 workshops.

City Light supports using the upcoming workshops to explore a potential change in cost allocation for load balancing reserves, as discussed in the May 24 workshop. City Light believes that cost causation principles should be used to assign and collect costs from customers and we encourage BPA set power and transmission in a manner consistent with these principles.

If you have any questions, please contact me at 206.389.4539 or stefanie.johnson@seattle.gov.

Thanks,
