# BPA's *pro forma* strategic guidance as principles for the new tariff

Consistent with the BPA 2018-2023 Strategic Plan and Transmission Business Model, BPA plans to propose a tariff that is consistent with the FERC *pro forma* tariff to the extent possible. BPA will consider differences from the FERC *pro forma* tariff if the difference is necessary to:

1. Implement BPA's statutory and legal obligations, authorities, or responsibilities;
2. Maintain the reliable and efficient operation of the federal system;
3. Prevent significant harm or provide significant benefit to BPA's mission or the region, including BPA's customers and stakeholders; or
4. Align with industry best practice when the FERC *pro forma* tariff is lagging behind industry best practice, including instances of BPA setting the industry best practice.

# TC-20 Workshop Tariff Timeline

FY 2018	FY 2019	FY 2020	FY 2021
---------	---------	---------	---------

# Address tariff language for certain topics in a future TC-22 Tariff Proceeding

- Deferred tariff language topics for sections related to:
  - Study Process
  - Excluding undesignations for firm market sales less than one year
  - Attachment C (ATC Methodology)
  - Attachment K (Regional Planning)
  - PTP and NT agreement templates
  - Simultaneous Submission Window (SSW)
  - Creditworthiness
- Identified deviations will be addressed in TC-22
- For TC-20, BPA is proposing to use current tariff language for the new tariff, which has been included in the draft tariff proposal we have posted
  - Specific sections for each topic are also posted
