

BPA Sample Study of WECC Real Power Loss Factor Publication

The following sample study was conducted by BPA in 2018 in attempts to identify if there was an industry standard / common practice amongst TPs located in WECC. Results were derived from public information provided within the TP's OATT and/or published Business Practices. Results of the sample study show there is not a conclusive "industry standard" in the west for reporting loss factors.

Transmission Provider	Loss Factor in Tariff or Business Practice
AESO
