

Transmission Services OASIS Product Pricing Validation

Posted: September 25, 2019

Effective Date: October 1, 2019, at 11:45 a.m. PPT

NOTE: The price validation check will not be performed for TSRs submitted between 11:00 a.m. and 11:45 a.m. PPT on the above effective date.

On October 1, 2019, at 11:45 a.m. (PPT), Transmission Services will be updating the OASIS default product prices to reflect the 2020 Transmission, Ancillary, and Control Area Service Rate Schedules. This OASIS function will operate as it has in the past, with the highest default price for the requested service displayed in the Bid Price field of the Transmission Service Request (TSR). Any customer using a template other than the one provided by OASIS to submit a TSR must update that template to reflect the new default prices to prevent that TSR from failing the pricing validation check. The Bid Price will not be validated during this update only.

The rate that the customer will be charged will be per the [2020 Transmission, Ancillary, and Control Area Service Rate Schedules](#).
