

# Condon Wind Project

GILLIAM COUNTY, OREGON  
PROJECT LOCATION

PHASE 1 – DECEMBER 2001

PHASE 2 – JUNE 2002

ON-LINE DATE

49.8 MW  
CAPACITY

12.7 aMW  
ENERGY

## PROJECT SITE

- The wind generation facility is located in southern Gilliam County, Oregon, five miles northwest of the town of Condon.
- The Condon project was built on private farmland, primarily used for dryland wheat and barley farming, as well as cattle grazing.
- Agricultural activities continue to take place adjacent to the turbine pads.

## THE TURBINES

- 83 – 600 kW Mitsubishi turbines.
- The turbines are 197 feet tall at the turbine hub, and 274 feet tall including the turbine blades. The diameter of the “swept area” covered by the rotors is 154 feet.

## OUTPUT

- The Condon wind project generates enough energy to serve 10,513 homes, more than the number of homes in McMinnville, Oregon.

## OWNERSHIP

- The project is owned and operated by Goldman Sachs (75%) and SeaWest Northwest Asset Holdings LLC (25%). BPA has a 20-year power purchase agreement for the entire output of the project.
