

Brown Bag: Definition of Electrically Heated Homes

When: Aug. 7, 2014

Time: 12:00 p.m. – 1:00 p.m.

Presentation and Discussion:

Join us for a presentation that will discuss the new definition of electrical heat, which will go into effect October 1st, 2014. The definition is used to qualify homes for residential energy efficiency programs. The new definition expands on the existing one to include homes that are likely to be electrically heated in the future and certain homes that are heated by a non-permanent electric heat source. The brownbag will cover each of the new qualifying scenarios in detail and discuss the reasoning that led to this decision.

Presenters: Sarah F. Moore, Residential Sector Lead and Courtney Dale, Weatherization Program Support
