

Customer Training: Simultaneous Submission Windows (SSW) July 27, 2016

Time: 1:00 p.m. to 2:00 p.m.

Where: Conference Call and WebEx Only

WebEx Link: [Join the meeting](#)

Meeting Number: 995 546 064 **Meeting Password:** M2dcM42i

Phone Bridge: (517) 968-7194 **Passcode:** 4913175#

FERC Order No. 890

In Order No. 890, FERC required all Transmission Providers that establish “no earlier than” time frames for submitting PTP Transmission Service Requests (TSRs) to treat those requests received within a specified time period at the beginning of the time frame as having been received simultaneously.

For example, BPA has established that a request for a monthly service cannot be entered prior to 60 days before the start of service. Since monthly service has an increment of Daily, a monthly TSR must begin at midnight. The earliest a monthly TSR can be entered then is at midnight, 60 days prior to start of service.

The idea of SSW is to level the playing field for PTP customers desiring a first shot at acquiring newly available ATC, so in this example, all monthly PTP TSRs queued during the first five minutes after midnight for service starting 60 days out are held until the end of that window, then sorted in NERC priority/lottery order, then released to ATC allocation in that new order.

SSW Order

- NERC Priority (N/A)
- Duration (Longer before Shorter)
- Pre-Confirmed before Non
- Price (N/A)
- Lottery Order (More Later)

Request Types Impacted by SSW

- SSW will apply to Original and Redirect requests for the following types of Firm Transmission Service,

- STF-Monthly PTP
- STF-Weekly PTP
- STF-Daily PTP
- F-Hourly PTP
- F-Daily Loss Returns
- F-Hourly Loss Returns

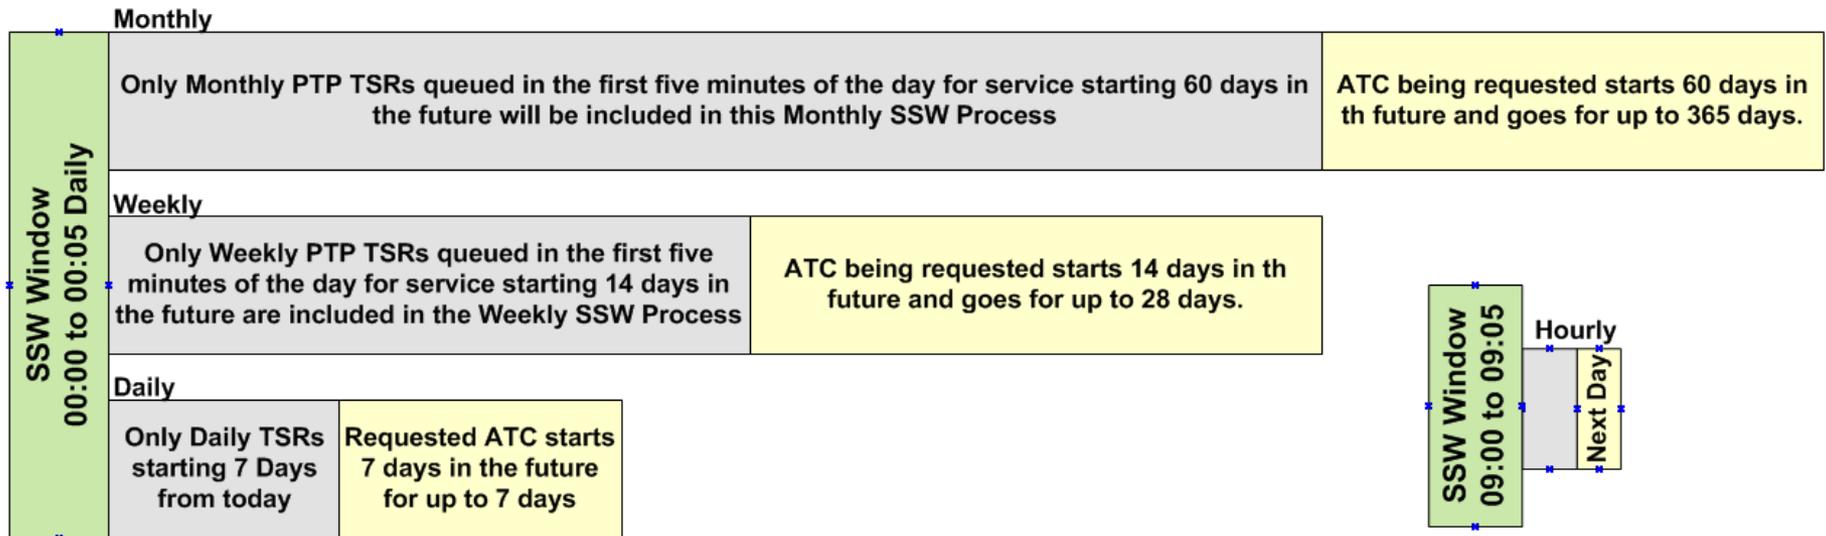

Firm Product	Simultaneous Window Opens	Simultaneous Window Closes	For service starting in
Monthly PTP	00:00	00:05	60 days
Weekly PTP	00:00	00:05	14 days
Daily PTP (including Daily Loss Returns)	00:00	00:05	7 days
Hourly PTP (including Hourly Loss Returns)	09:00	09:05	WECC Pre-schedule day

that are queued during the first five minutes of their “no earlier than” submission window.

- SSW will not apply to requests for Long Term Firm, Network Transmission (NT), or Non-Firm transmission service.
- SSW will also not apply to Deferral, Matching, Resale, Recall, Relinquish, or Renewal requests.

SSW Windows at BPA

The same principle with different lead times applies to BPA’s weekly, daily, and hourly PTP services.

Note: All non SSW TSRs are processed in normal Queue order as they come in just as they are today.

Probable Impact of Implementing SSW

Based on Calendar Year 2015 TSRs

PTP TSRs Queued in the First Five Minutes of the Day					
<u>SSW Eligible</u>					<u>Not Eligible</u>
	Original	Redirect	Losses	In Their SSW Window	Resale, NT, etc.
Monthly	0	0	0	0	7
Weekly	0	8	0	0	2
Daily	0	1	0	0	3
Total	0	9	0	0	12
Hourly PTP TSRs Queued between 9:00 and 9:05					
<u>SSW Eligible</u>					<u>Not Eligible</u>
	Original	Redirect	Losses	For Next Day Service	Resale, NT, etc.
Hourly	114	12911	117	12528	840
12,528 Hourly PTP TSRs impacted by SSW, or Roughly 50 per Preschedule Day.					

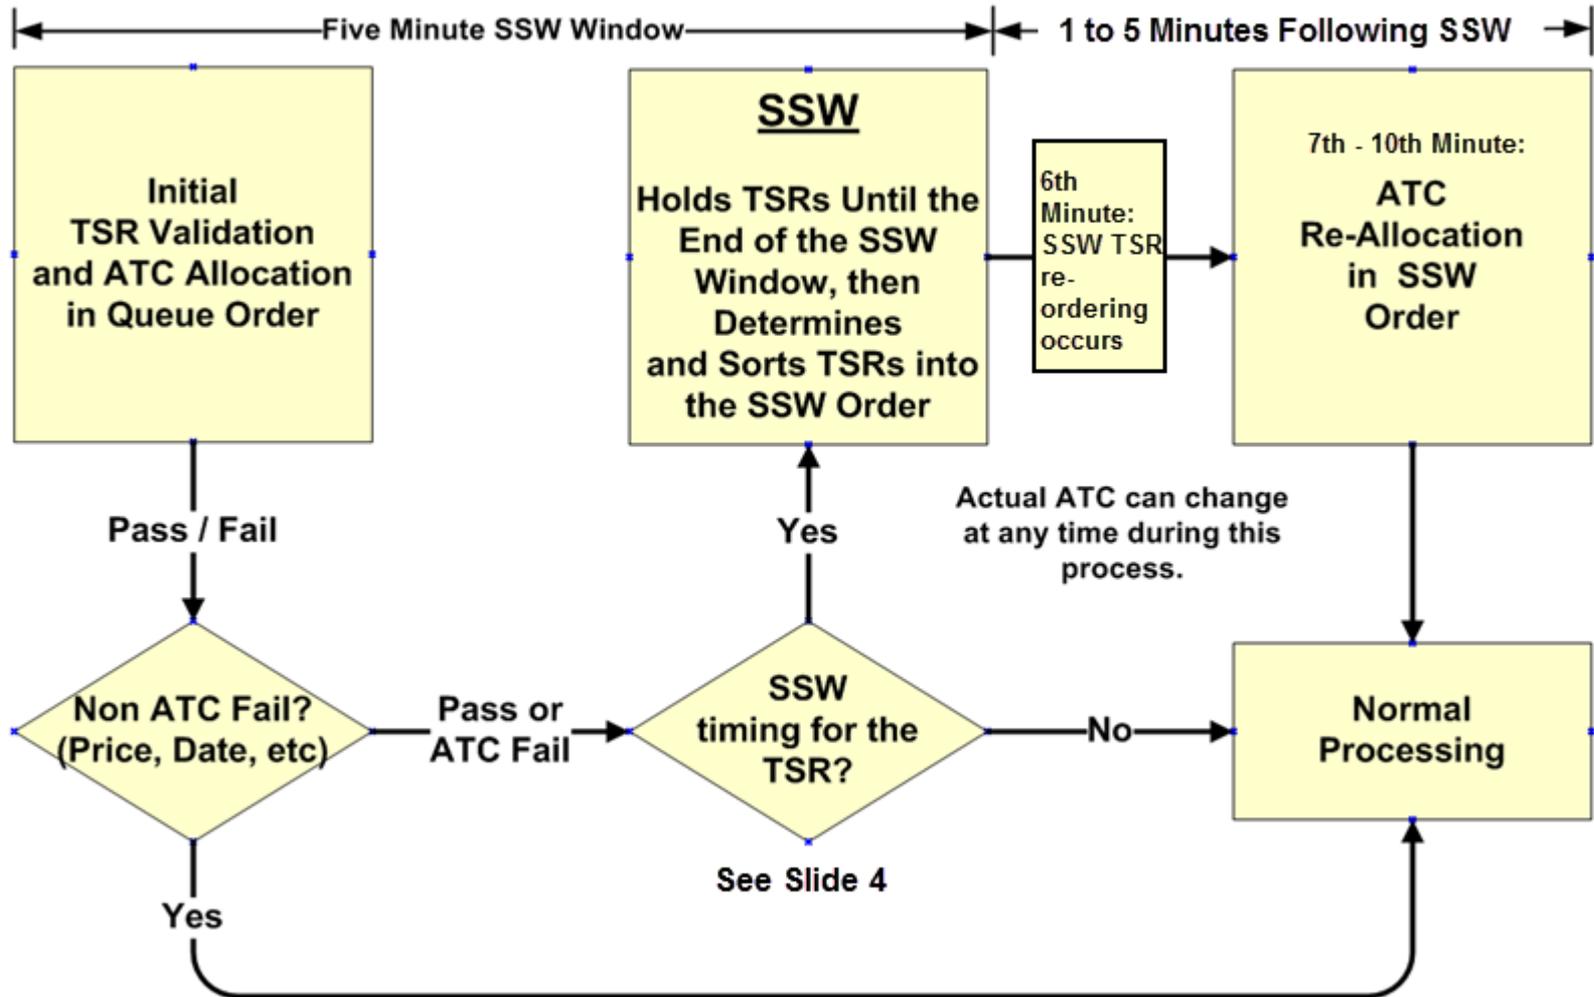

Note for Hourly:

These numbers for Hourly do not take into account which TSRs are network only and which cross an intertie. Though all PTP Hourly TSRs entered during the SSW window will be subject to SSW reordering, only those that cross an intertie will be at risk of being refused as long as BPA offers unlimited Hourly on the network.

Request Ordering by SSW

1. For eligible requests submitted within the five-minute window, BPA will allocate available capacity pursuant to section 13.2(ii) of BPA's Tariff using the following priorities:
 - a. Service duration (longer duration requests receive priority over shorter duration requests);
 - b. Pre-confirmation status (pre-confirmed requests receive priority over non-preconfirmed requests of equal duration);
 - c. Bid price (higher bid price requests receive priority over lower bid price requests --applies only if BPA offers discounts on transmission service under its Tariff);
 - d. Lottery allocation Explained further in section D below.
2. SSW ordering is only for the purpose of initially awarding ATC. It does not change the Queue Time, Queue Order or AREF.
3. The original Queue Time is still used for all downstream processes and ordering.
4. SSW only impacts the order in which TSR's are evaluated. Once it is a given TSR's turn to be evaluated, that evaluation will be performed the same as it does today.

SSW and ATC Validation/Allocation

Example of SSW Ordering

		Order Going Into SSW							Final Order						
Time	ATC	Day 7	Day 8	Day 9	Day 10	Day 11		ATC	Day 7	Day 8	Day 9	Day 10	Day 11		
12:00:00 AM	80	Customer X TSR1 for 10 MW Preconfirmed			Pass		ATC Changed	85	Customer X TSR9 for 10 MW Not Preconfirmed - Accepted					Group 1	Longer Duration than all others
12:00:02 AM	70	Customer Y TSR2 for 15 MW Preconfirmed			Pass		75	Customer X TSR6 for 10 MW Confirmed							
12:01:00 AM	55	Customer X TSR3 for 15 MW Not Preconfirmed			Pass		65	Customer X TSR8 for 10 MW Confirmed					Group 2	Same Duration, All Preconfirmed, Same Customer. If there is only one customer within a given group, there is no need for a lottery within that group. Lottery Numbers are assigned in Queue Order.	
12:01:02 AM	40	Customer X TSR4 for 5 MW Preconfirmed			Pass		55	Customer X TSR10 for 10 MW Confirmed							
12:01:30 AM	35	Customer Y TSR5 for 10 MW Preconfirmed		Pass		45	Customer X TSR3 for 15 MW Not Preconfirmed - Accepted					Group 3	Same Duration, but not preconfirmed		
12:02:00 AM	25	Customer X TSR6 for 10 MW Preconfirmed			Pass		30	Customer Y TSR2 for 15 MW Confirmed							
12:02:05 AM	15	Customer Y TSR7 for 10 MW Preconfirmed			Pass		15	Customer X TSR1 for 10 MW Confirmed					Group 4 Lottery	Same Duration, All Preconfirmed, Different Customers. If more than one Customer is in a group, then the Lottery places the customers in a random order, then following that order, picks the 1st TSR from each customer before going back through the group and picking the 2nd TSR from each customer and so forth until all TSRs in the group have been assigned an order.	
12:03:00 AM	5	Customer X TSR8 for 10 MW Preconfirmed			Fail		5	Customer Y TSR7 for 10 MW Counteroffer							
12:04:00 AM	0	Customer X TSR9 for 10 MW Not Preconfirmed			Fail		0	Customer X TSR4 for 5 MW Refused							
12:04:59 AM	0	Customer X TSR10 for 10 MW Preconfirmed			Fail		0	Customer Y TSR5 for 10 MW Refused					Group 5	Shorter Duration than all others	

For the purpose of this example, a Group consists of TSRs with the same Duration and Preconfirmation status.

SSW Impacted by a Non-SSW TSR #1

		Order Going Into SSW							Final Order				
Time	ATC	Day 7	Day 8	Day 9	Day 10	Day 11		ATC	Day 7	Day 8	Day 9	Day 10	Day 11
12:00:00 AM	80	Customer X TSR1 for 10 MW Preconfirmed			Pass		ATC Increased Independent of SSW	85	Customer X TSRX for 10 MW Accepted				
12:00:02 AM	70	Customer Y TSR2 for 15 MW Preconfirmed			Pass			75	Customer X TSR9 for 10 MW Not Preconfirmed - Accepted				
12:01:00 AM	55	Customer X TSR3 for 15 MW Not Preconfirmed			Pass			65	Customer X TSR6 for 10 MW Confirmed				
12:01:02 AM	40	Customer X TSR4 for 5 MW Preconfirmed			Pass			55	Customer X TSR8 for 10 MW Confirmed				
12:01:30 AM	35	Customer Y TSR5 for 10 MW Preconfirmed	Pass					45	Customer X TSR10 for 10 MW Confirmed				
12:02:00 AM	25	Customer X TSR6 for 10 MW Preconfirmed			Pass			35	Customer X TSR3 for 15 MW Not Preconfirmed - Accepted				
12:02:02 AM	15	Customer X TSRX for 10 MW Not Preconfirmed			Pass	Starts sooner than 7 days out, so TSRX is not subject to SSW.		20	Customer Y TSR2 for 15 MW Confirmed				
12:02:05 AM	5	Customer Y TSR7 for 10 MW Preconfirmed			Fail			5	Customer X TSR1 for 10 MW Counteroffer				
12:03:00 AM	0	Customer X TSR8 for 10 MW Preconfirmed			Fail			0	Customer Y TSR7 for 10 MW Refused				
12:04:00 AM	0	Customer X TSR9 for 10 MW Not Preconfirmed			Fail			0	Customer X TSR4 for 5 MW Refused				
12:04:59 AM	0	Customer X TSR10 for 10 MW Preconfirmed			Fail		0	Customer Y TSR5 for 10 MW Refused					

SSW Impacted by a Non-SSW TSR #2

Time	ATC	Order Going Into SSW					ATC Increased Independent of SSW	Final Order					
		Day 7	Day 8	Day 9	Day 10	Day 11		ATC	Day 7	Day 8	Day 9	Day 10	Day 11
12:00:00 AM	80	Customer X TSR1 for 10 MW Preconfirmed			Pass		ATC Increased Independent of SSW	85	Customer X TSRX for 10 MW Counteroffer 10-0-0-0				
12:00:02 AM	70	Customer Y TSR2 for 15 MW Preconfirmed			Pass			85	Customer X TSR9 for 10 MW Not Preconfirmed - Accepted				
12:01:00 AM	55	Customer X TSR3 for 15 MW Not Preconfirmed			Pass			75	Customer X TSR6 for 10 MW Confirmed				
12:01:02 AM	40	Customer X TSR4 for 5 MW Preconfirmed			Pass			65	Customer X TSR8 for 10 MW Confirmed				
12:01:30 AM	35	Customer Y TSR5 for 10 MW Preconfirmed		Pass				55	Customer X TSR10 for 10 MW Confirmed				
12:02:00 AM	25	Customer X TSR6 for 10 MW Preconfirmed			Pass			45	Customer X TSR3 for 15 MW Not Preconfirmed - Accepted				
12:02:05 AM	15	Customer Y TSR7 for 10 MW Preconfirmed			Pass			30	Customer Y TSR2 for 15 MW Confirmed				
12:03:00 AM	5	Customer X TSR8 for 10 MW Preconfirmed			Fail			15	Customer X TSR1 for 10 MW Confirmed				
12:03:30 AM	0	Customer X TSRX for 10 MW Not Preconfirmed			Fail	Starts sooner than 7 days out, so TSRX is not subject to SSW.		5	Customer Y TSR7 for 10 MW Counteroffer				
12:04:00 AM	0	Customer X TSR9 for 10 MW Not Preconfirmed			Fail			0	Customer X TSR4 for 5 MW Refused				
12:04:59 AM	0	Customer X TSR10 for 10 MW Preconfirmed			Fail		0	Customer Y TSR5 for 10 MW Refused					

SSW Impacted by a Non-SSW TSR #3

Time	Order Going Into SSW						ATC	Final Order					
	ATC	Day 7	Day 8	Day 9	Day 10	Day 11		ATC	Day 7	Day 8	Day 9	Day 10	Day 11
12:00:00A M	80	Customer X TSR1 for 10 MW Preconfirmed			Pass		ATC Increased Independent of SSW	85	Customer X TSR9 for 10 MW Not Preconfirmed - Accepted				
12:00:02A M	70	Customer Y TSR2 for 15 MW Preconfirmed			Pass			75	Customer X TSR6 for 10 MW Confirmed				
12:01:00A M	55	Customer X TSR3 for 15 MW <u>Not</u> Preconfirmed			Pass			65	Customer X TSR8 for 10 MW Confirmed				
12:01:02A M	40	Customer X TSR4 for 5 MW Preconfirmed			Pass			55	Customer X TSR10 for 10 MW Confirmed				
12:01:30A M	35	Customer Y TSR5 for 10 MW Preconfirmed	Pass					45	Customer X TSR3 for 15 MW Not Preconfirmed - Accepted				
12:02:00A M	25	Customer X TSR6 for 10 MW Preconfirmed			Pass			30	Customer Y TSR2 for 15 MW Confirmed				
12:02:05A M	15	Customer Y TSR7 for 10 MW Preconfirmed			Pass			15	Customer X TSR1 for 10 MW Confirmed				
12:03:00A M	5	Customer X TSR8 for 10 MW Preconfirmed			Fail			5	Customer Y TSR7 for 10 MW Counteroffer				
12:04:00A M	0	Customer X TSR9 for 10 MW <u>Not</u> Preconfirmed			Fail			0	Customer X TSR4 for 5 MW Refused				
12:04:59A M	0	Customer X TSR10 for 10 MW Preconfirmed			Fail			0	Customer Y TSR5 for 10 MW Refused				
12:05:01A M		Customer X TSRX for 10 MW				Wait →			Customer X TSRX for 10 MW Counteroffer 10-0-0-0				

If a TSR is queued after the 5-minute SSW window closes but before the SSW Ordering and final ATC allocation is complete, it must wait for all of the SSW requests to finish processing before it can proceed.

webSmartOASIS Reservation Summary

All eligible TSRs entered during their respective SSW window that pass the initial non-ATC TSR Validations will remain Queued until the end of the SSW window. Any other TSRs entered during that time will process normally. The customer will know which TSRs are held by SSW by the Yes in the Simultaneous Submission Column and non-blanks in Effective Queue Time.

webSmartOASIS Reservation Summary

During the SSW window, a customer can only see their own TSRs that are being held as SSW requests. The system will hide (mask) from view the SSW TSRs of other customers. Once the SSW window closes, all requests again come into view.

webSmartOASIS Reservation Detail

If a customer brings up the Reservation Detail screen during the SSW window, they will see the “Simultaneously Submitted TSR” message at the top (until the following day).

webSmartOASIS Reservation Summary

Right after the SSW Window closes (00:05 or 09:05 for Hourly), the lottery kicks off. Once the lottery has determined the order the TSRs will be processed in, it passes the TSRs back to ATC Validation for awarding ATC as far as it goes. The Reservation Summary screen will begin showing the final Status of the TSRs as the results are determined. Any TSRs that come into OASIS after the SSW window closes and before all lottery actions are complete will be held until all TSRs involved in the lottery are taken care of.

webSmartOASIS Reservation Summary

The final result may show some TSRs refused while other TSRs that came in after them were confirmed or accepted, but the key is to look at the Simultaneous Submission flag or the Effective Queue Time.
