Categorical Exclusion Determination  
Bonneville Power Administration  
Department of Energy

**Proposed Action:** Andrew Reasoner Wildlife Preserve Property Conservation Easement Funding  

**Fish and Wildlife Project No. and Contract No.:** 2011-003-00; BPA-008415  

**Project Manager:** Dorie Welch – KEWM-4  

**Location:** Fox Hollow Quadrangle, in Lane County, Oregon (near Eugene, Oregon).  

**Categorical Exclusion Applied (from Subpart D, 10 C.F.R. Part 1021):** B1.25 Real property transfers for cultural resources protection, habitat preservation, and wildlife management  

**Description of the Proposed Action:** BPA is proposing to fund the purchase of a conservation easement over the Andrew Reasoner Wildlife Preserve property, a 293-acre parcel of land located 3 miles southwest of Eugene, in Lane County, Oregon. The property would be placed under a conservation easement to provide long-lasting wildlife benefits by preventing the conversion of fish and wildlife habitat to other land uses.

Funding the purchase of the property and long-term stewardship would partially fulfill commitments made in the 2010 “Willamette River Basin Memorandum of Agreement Regarding Wildlife Habitat Protection and Enhancement between the State of Oregon and the Bonneville Power Administration.” This is part of BPA’s ongoing efforts to mitigate for impacts to fish and wildlife of the construction and operation of Willamette River Basin federal flood control facilities from which BPA markets power. Placing this property in a conservation easement would provide long-lasting wildlife benefits as part of a growing network of conservation lands in the Willamette Valley that are preventing the conversion of fish and wildlife habitat to other land uses.

The property consists of 293 acres of riparian forest. The Mckenzie River Trust will provide long-term stewardship of the land and develop a management plan to guide the protection and enhancement of habitat and other resources on the property. The management plan would be reviewed by BPA for consistency with the agreement and purpose of the acquisition. If BPA proposes to fund any management activities on the property, additional environmental review would be conducted.

**Findings:** In accordance with Section 1021.410(b) of the Department of Energy’s (DOE) National Environmental Policy Act (NEPA) Regulations (57 FR 15144, Apr. 24, 1992, as amended at 61 FR 36221-36243, July 9, 1996; 61 FR 64608, Dec. 6, 1996, 76 FR 63764, Nov. 14, 2011), BPA has determined that the proposed action:

1. fits within a class of actions listed in Appendix A of 10 CFR 1021, Subpart D (see attached Environmental Checklist);  
2. does not present any extraordinary circumstances that may affect the significance of the environmental effects of the proposal; and  
3. has not been segmented to meet the definition of a categorical exclusion.
Based on these determinations, BPA finds that the proposed action is categorically excluded from further NEPA review.

Categorical Exclusion Environmental Checklist

This checklist documents environmental considerations for the proposed project and explains why the project would not have the potential to cause significant impacts on environmentally sensitive resources and would meet other integral elements of the applied categorical exclusion.

Proposed Action: Andrew Reasoner Wildlife Preserve Property Conservation Easement Funding

Project Site Description

The 293-acre Andrew Reasoner Wildlife Preserve property is currently under private ownership; consists of riparian forest and shrubland habitat; and is located in Lane County, Oregon.

### Evaluation of Other Integral Elements

The proposed project would also meet conditions that are integral elements of the categorical exclusion. The project would not:

- **Threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, or similar requirements of DOE or Executive Orders.**
  
  **Explanation, if necessary:**

- **Require siting and construction or major expansion of waste storage, disposal, recovery, or treatment facilities (including incinerators) that are not otherwise categorically excluded.**
  
  **Explanation, if necessary:**

- **Disturb hazardous substances, pollutants, contaminants, or CERCLA excluded petroleum and natural gas products that preexist in the environment such that there would be uncontrolled or unpermitted releases.**
  
  **Explanation, if necessary:**
Involve genetically engineered organisms, synthetic biology, governmentally designated noxious weeds, or invasive species, unless the proposed activity would be contained or confined in a manner designed and operated to prevent unauthorized release into the environment and conducted in accordance with applicable requirements, such as those of the Department of Agriculture, the Environmental Protection Agency, and the National Institutes of Health.

Explanation, if necessary:

---

**Landowner Notification, Involvement, or Coordination**

Description: Notification letters will be sent to adjacent landowners and other interested parties at a minimum of 15 days before the closing date (proposed closing date 9/28/15) of the sale. Ads will also be posted in local newspapers, and information will be posted on BPA’s public website prior to closing.

---

Based on the foregoing, this proposed project does not have the potential to cause significant impacts on any environmentally sensitive resources.
