In reply refer to: TEP-CSB-2

To: Parties interested in the electrical interconnection of the Juniper Canyon I Wind Energy Project

Bonneville Power Administration (BPA) has prepared the enclosed Record of Decision (ROD) for the electrical interconnection of the Juniper Canyon I Wind Energy Project to the Federal Columbia River Transmission System (FCRTS). This ROD documents BPA's decision to offer Pacific Wind Development. (Pacific Wind), a wholly owned subsidiary of Iberdrola Renewables Inc., a Large Generator Interconnection Agreement for interconnection of up to 150 megawatts (MW) of power into the FCRTS. This decision is consistent with and tiered to BPA's Business Plan Environmental Impact Statement (DOE/EIS-0183 June 1995) and the Business Plan Record of Decision (BP ROD, August 15 1995).

Background

Pacific Wind plans to develop its Juniper Canyon I Wind Energy Project in Klickitat County, Washington. The project has been approved by the Klickitat County Planning Department, and an Energy Overlay Zone permit was issued by the County on February 12, 2010. BPA is responding to Pacific Wind's request to interconnect up to 150 MW of power from the Wind Project to the FCRTS, which is owned and operated by BPA. To interconnect the wind project, BPA will expand its existing Rock Creek Substation by about 0.25 acre. Construction at the substation will begin this summer, and is expected to be completed by August 2010.

For more information

If you need more information or have any questions, please call me toll free at (800) 622-4519, or e-mail at ejaramillo@bpa.gov. If you would like a copy or additional copies of this ROD, please visit our Web site at: http://www.efw.bpa.gov/environmental_services/Document_Library/Juniper_Canyon_Wind/ or you may call our toll-free document request line at (800) 622-4520. Leave a message naming this project, along with your name and complete mailing address. Thank you for your interest in our work.

Sincerely,

/s/ Emmanuel Jaramillo
