

Work Elements and Milestones

Pisces Statement of Work Report

Work Element Details

A: Remove or Relocate Predaceous Animals

Title: Remove giraffes and hippos

Description: Non-predaceous animals provide no population control benefit, yet exact a considerable habitat tax in the form of vegetation depletion. Resource competition from non-pred animals results in substantial habitat unit pressure and eventual reduction in focal species populations.

Sorry, the giraffes and hippos gotta go!

Deliverable Specification: Remove all giraffes taller than 2 meters
Remove all giraffes younger than 2 yrs
Remove all hippos greater than 0.5 tons
Remove all hippos younger than .075 yrs

Work Element Title

This is the title for this specific work element in the SOW. The reason we use titles is to help distinguish between multiple instances of the same work element on a SOW. For example, a work element title may be "Remove Animals from North Property".

Work Element Description

The description is used to describe the work that will be completed by the work element. It can be as long and as detailed as is necessary.

Deliverable Specification

The purpose of the deliverable description is to call out exactly what will be accomplished by the work element. Often, it will duplicate information that could be found by reading the work element description. However, the deliverable description is important because it clearly identifies the deliverable and makes it easy to locate.

Milestone Title	Start Date	End Date	Milestone Description
Identify count and location of giraffes	11/17/2004	11/19/2004	Count 100% of the giraffes, need location to the nearest inch test
Identify count and location of hippos	11/14/2004	11/16/2004	Count 100% of the hippos, need location to the nearest inch
Obtain permits	11/14/2004	11/30/2004	Get permits #8762 and #9289
Set traps for both giraffes and hippos	12/13/2004	12/17/2004	Size XXL and XXXL, respectively
Bait traps	12/20/2004	12/21/2004	I like to use night crawlers and/or Oscar Meyer all beef franks.
Collect animals and liberate them in the suburbs	2/25/2004	12/25/2004	Rent U-Hauls for transport.
Deliverable: <none> complete		11/24/2004	Count 100% of the giraffes, need location to the nearest inch

Milestones

Milestones can be used to identify significant activities or events associated with a work element. There is no standard format for milestone titles. They can be anything the contractor and project manager wish.

Milestone Description

The milestone description is used to describe the details of the milestone.
