ENVIRONMENT, FISH AND WILDLIFE

July 28, 2015

In reply refer to: KEC-4

**To: Parties Interested in the Proposed Mulkey Ridge Land Acquisition under the 2010 Willamette Wildlife Habitat Agreement**

The Bonneville Power Administration (BPA) intends to fund the purchase of approximately 170 acres of oak savanna, oak woodland, and riparian forest and shrubland, located north of Philomath in Benton County, Oregon. When the purchase is complete, Greenbelt Land Trust will own and manage the property for wildlife conservation purposes, and BPA will receive a conservation easement to ensure that the habitat values on the property are always protected. BPA is sending this letter to inform nearby residents and other interested parties of this land purchase.

Funding this land purchase partially fulfills commitments made by BPA in the 2010 "Willamette River Basin Memorandum of Agreement Regarding Wildlife Habitat Protection and Enhancement between the State of Oregon and the Bonneville Power Administration." This is part of ongoing efforts to mitigate for the impacts to fish and wildlife from the construction and operation of federal flood control and hydroelectric facilities in the Willamette River Basin. When the transaction is complete, this property will become one of a growing network of conservation lands in the Willamette Valley providing important and long lasting fish and wildlife habitat benefits. Conserving habitat on the property also partially fulfills BPA's habitat restoration and protection responsibilities under the Willamette Project Biological Opinions (NMFS 2008, USFWS 2008).

Enclosed you will find a map detailing this land transaction. BPA has prepared a memo and environmental checklist documenting that no further environmental review of this funding action is required under the National Environmental Policy Act (NEPA). This documentation, known as a categorical exclusion, was approved on July 23, 2015, and is posted on BPA's website at: [http://www.efw.bpa.gov/environmental\\_services/categorialexclusions.aspx](http://www.efw.bpa.gov/environmental_services/categorialexclusions.aspx).

Upon completion of the land acquisition, BPA and Greenbelt Land Trust intend to establish secure, permanent funding for stewardship of the property. BPA will make a one-time lump sum payment to fund a stewardship account from which Greenbelt Land Trust will draw monies as needed to provide permanent stewardship on the property. Stewardship management actions may include, but are not limited to public outreach, site monitoring, habitat mapping,

encroachment monitoring, invasive species monitoring and control, and annual maintenance of boundary fence, signage, or gates.

The Greenbelt Land Trust will develop a management plan to guide the protection and enhancement of fish and wildlife habitat on the property. The Greenbelt Land Trust will provide the opportunity for the public to review the draft plan. BPA will review the plan for consistency with the purpose of the acquisition and the terms and conditions of the conservation easement prior to its implementation. Restoration activities associated with the property would be funded with sources other than stewardship funds. If BPA proposes to fund any restoration activities, we will conduct additional environmental review under NEPA and other statutes as appropriate.

If you have any questions regarding this land purchase, please feel free to contact the project manager, Dorie Welch at (503) 230-5479 or [dwwelch@bpa.gov](mailto:dwwelch@bpa.gov). You can also call toll free 800-622-4519. Please refer to the Mulkey Ridge Conservation Easement.

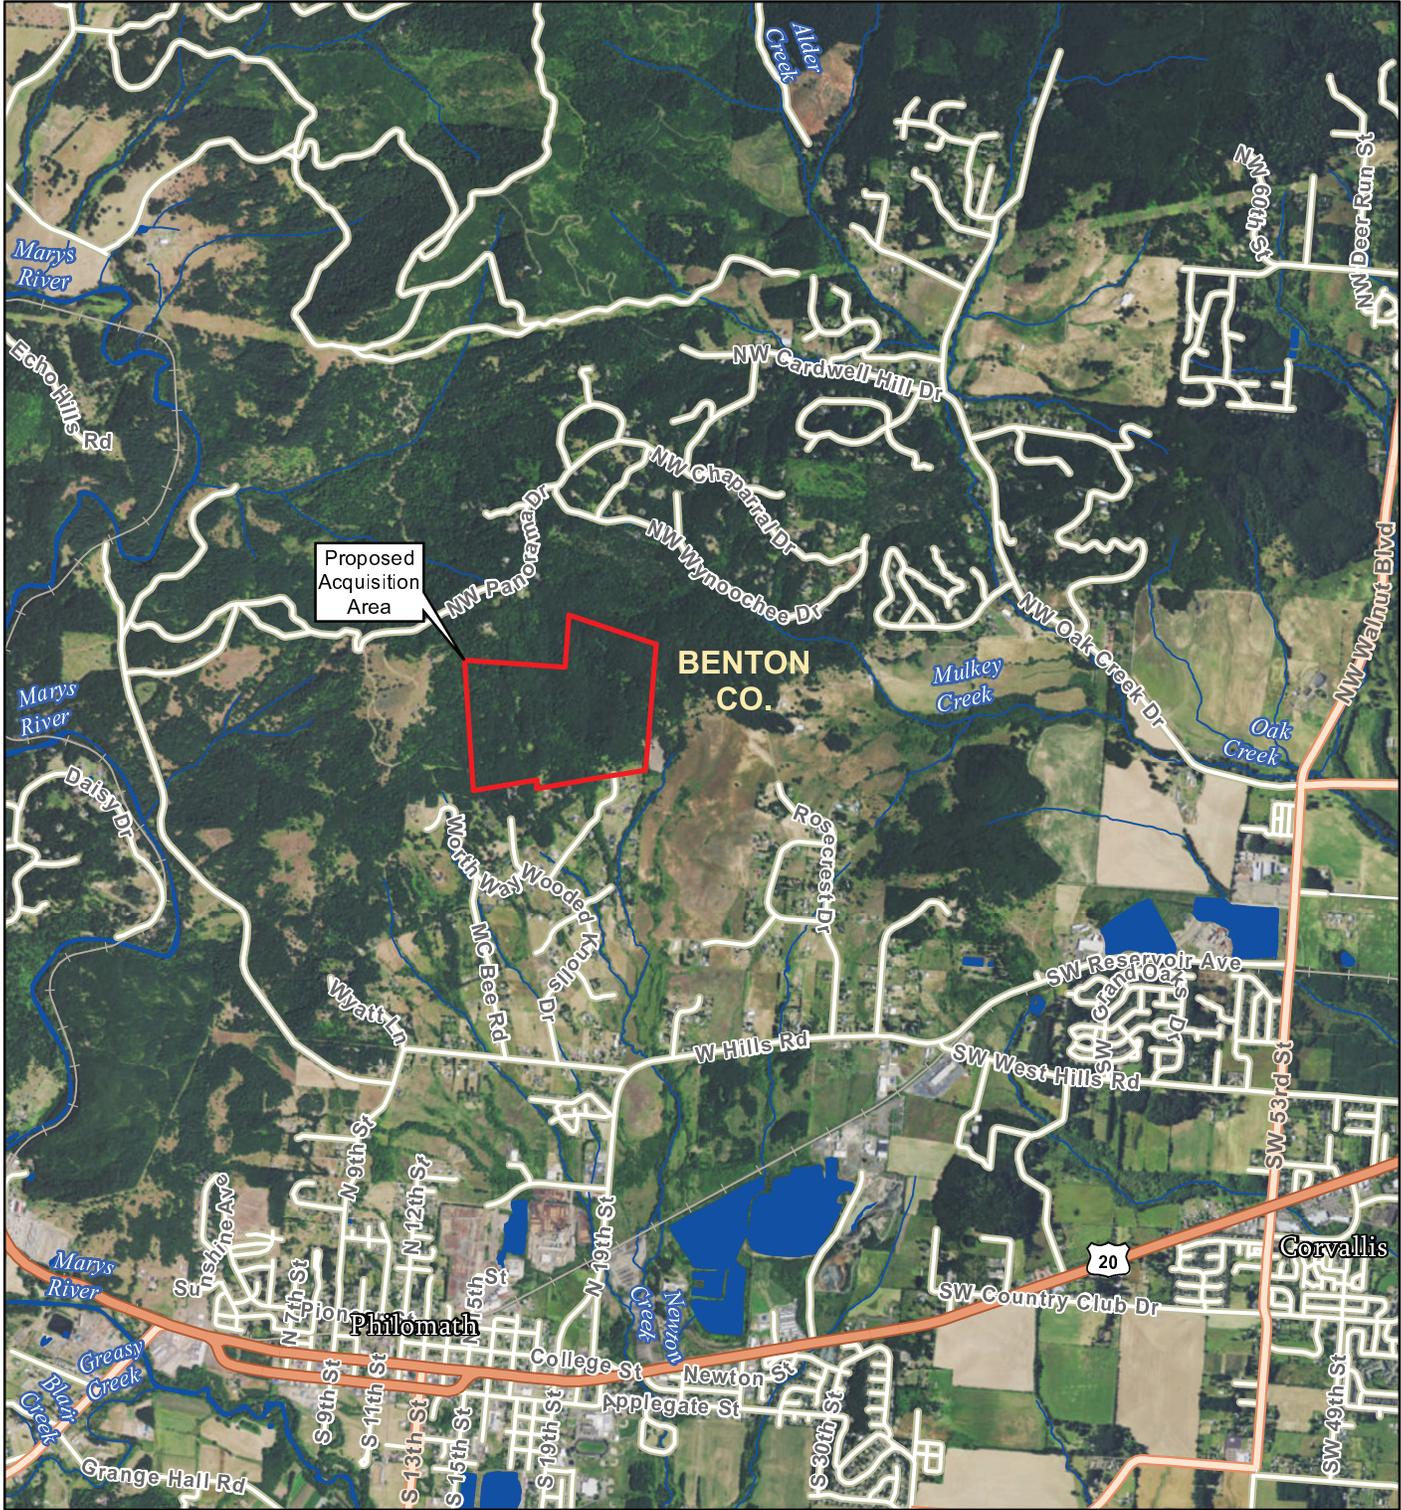

Sincerely,

/s/ Donald L. Rose
