FOIA #BPA-2013-00204-F

Dear Ms. Dougherty:

This is a final response to your request for records that you made to the Bonneville Power Administration (BPA), under the Freedom of Information Act (FOIA), 5 U.S.C. 552.

You have requested the following:

A copy of the awarded bid and design submitted by EZ Wireless for RFP 2374 Dittmer Cell Phone Repeater Replacement.

Response:

Exemption 3 of FOIA requires the withholding of information that is prohibited from disclosure by another federal statute 5 U.S.C. § 552(b)(3). 41 U.S.C. §4702 (b) prohibits an agency from disclosing a proposal that is in the possession or control of the agency, unless that proposal is set forth or incorporated by reference in a contract between the agency and the contractor.

After an analysis performed with the Contracting Officer for the contract, only two items of information from the EZ Wireless bid were found to have been incorporated or referenced in the BPA contact with EZ Wireless. Those items have undergone an Exemption 4 review and EZ Wireless has determined that no competitive harm will be incurred with the release of that information. Therefore, BPA is releasing that information in its entirety.

Also withheld is some personal contact information under Exemption 6. This exemption applies to information which could reasonably be expected to constitute an unwarranted invasion of personal privacy if disclosed. There is no public interest in the disclosure of this information because it does not shed any light on how BPA has performed its statutory duties.

Pursuant to 10 CFR 1004.8, if you are dissatisfied with this determination, or the adequacy of the search, you may appeal in writing within 30 calendar days of receipt of a final response letter. The appeal should be made to the Director, Office of Hearings and Appeals, HG-1, Department

of Energy, 1000 Independence Avenue, SW, Washington, DC 20585-1615. The written appeal, including the envelope, must clearly indicate that a FOIA Appeal is being made.

The fees associated with this request total \$84.86. You will be billed separately.

I appreciate the opportunity to assist you. Please contact Kim Winn, Communications Specialist, at 503-230-5273 with any questions about this letter.

Sincerely,

/s/ Christina J. Munro

Christina J. Munro

Freedom of Information Act/Privacy Act Officer

Kyle,
See responses below.

I hope this additional language and detail is what you were needing!

Thanks

Rob

Subject: Questions
Importance: High

Rob:

Your warranty, is stated that it is 12 months for the active equipment and up to 10 years of the passive equipment. This statement is very vague. Would you be more specific?

[Ex 3]

Can you send us a bill of materials with price of each intended component?

Cable Assemblies [Ex 3]
Antenna Assemblies
Coupler Assemblies
Node A Chassis + Cards
Ion B Subrack + Cards
Fiber Remotes
Donor Assembly]

Does your proposal include installing a "AT&T 700 LTE" system?

[Ex 3]

On page 3, ezWireless states that it assumes that all interior walls are primary drywall construction in the Dittmer building. This is not the case, many walls are not of drywall construction.

[Ex 3]

On page 3, ezWireless states that it assumes that Roof penetrations for cabling exist and are available. Some penetrations are existing, however more may be needed. This will require drilling through concrete. Will ezWireless supply this work?

[Ex 3]

Ex 3

On page 3, ezWireless states that it assumes that no hazardous materials or asbestos is present in the Dittmer building. There are materials that do contain asbestos in the Dittmer building, however these materials will be disclosed to ezWireless. Due to where these materials are located in the Dittmer building, this should not be an issue for this project.
