Subject: BPA: ATADS Discussion - Power Line License

Sarah,

Thank you for the time you and the BPA staff spent today to discuss our concerns regarding ATADS distribution. We are able to better understand BPA's position and I hope you can appreciate ours. If you could let me know when you will be available next week, I would like to schedule a time to call you and follow-up on the items we discussed. Any time except Thur looks Ok for me.

Please also consider this email as our formal request for a copy the program ATADS (latest version, including the software documentation and source code). I understand that this program is freely available without copyright restriction, and is made available upon request. Please advise if a particular BPA form or other document is necessary for this request (a FOIA request was mentioned today).

Thanks again. I look forward to hearing from you.

Best Regards,

Steven Weber, P.E.
