Please use this number in any correspondence with the Agency about your request.

**You requested the following:**

Dear Mr. Barton:

This is a follow up response to your request for records that you made to the Bonneville Power Administration (BPA), under the Freedom of Information Act (FOIA), 5 U.S.C. 552.

The statute requires that requests be acted on “promptly,” and “every effort” be made to respond within 20 working days. However, an extension is authorized for complex requests, which is defined in the FOIA when “unusual circumstances” exist. Unusual circumstances are defined as searching inactive records; where a “voluminous” amount of data is involved; where information about other individuals has to be redacted; or where BPA has to consult with another agency which has a substantial interest in the response.

In analysis of your five outstanding FOIA requests, I have determined that they meet the “unusual circumstances” criteria under 5USC 552(a)(6)(B)(1). In this situation, the unusual circumstances involve redacting information on other individuals and the voluminous amount of data involved in processing and reviewing the requests.

Additionally, “exceptional circumstances” exist due to an unexpected and unusual spike in the volume of requests. Be assured that every effort is being made to complete your requests as timely as possible. We are processing complex requests in a “first in, first out” basis and will keep you apprised of our progress.

As required by FOIA, we informed you that you had the opportunity to limit the scope of your request, or arrange with BPA an alternative time frame for processing the request or a modified request, and you have declined to do so.

I am providing you with the revised projected release dates below. I assure you I will make every effort to finalize and release the responsive records to your requests before the stated deadlines.

**You have requested: BPA-2013-00195-C** – “Communications and email from Connie Langston about the review at Bonneville related to the recent DOE-OIG Management Alert (DOE/IG-0891).” Estimated goal date of **June 6, 2014**.
