Reasonably Describe Records

Describe the specific record(s) you seek with sufficient detail that a knowledgeable official of the activity may locate the record with a reasonable amount of effort. Such detail should include: dates, titles, file designations, and offices to be searched.

Since most DOE records are not retained permanently, the more information you provide, the better the opportunity there is to determine if the records involved still exist and where. The FOIA clearly states that records must exist at the time the request is submitted.

In the following requests, "PAC" means PacifiCorp, "EIM" means an Energy Imbalance Market currently proposed and under development by the California ISO for PAC, and "dynamic" refers to any use of transmission rights that permits changes in the level of transmitted energy within a scheduling interval.

Please provide in electronic, non-pdf format each of the following:

1. All tariff and legacy transmission contracts, with a term of one-year or more, between PAC and BPA under which PAC obtains transmission service from BPA or rights to use BPA transmission and which contain transmission rights that PAC and BPA have identified would be used for EIM transactions in the future. Please identify which of these contracts contain rights for which there has been dynamic use historically and the nature and purpose of that historic use. In regard to the nature of that dynamic use, please provide the frequency of dynamic changes and the range of dynamic change.
2. All documentation that constitutes or contains an interpretation, understanding or agreement regarding the dynamic use or scope of any of the transmission rights contained in or related to the contracts in (1) above.
3. All documentation of past practices by BPA or PAC that bears or potentially bears on the use or scope of the transmission, scheduling, tagging or dynamic use rights contained in or related to the contracts in (1) above.
4. All analyses that BPA performed regarding PAC's current or historic dynamic use of rights in the contracts in (1) above. All analysis that BPA performed regarding PAC's use of its transmission rights in its proposed participation in an EIM. Please provide all assumptions, methodologies, spreadsheets and data sets that were used in each such analysis.
5. All requests for dynamic use of transmission rights by PAC.
6. All analyses that BPA performed in evaluating all requests by PAC for dynamic use of transmission rights. Please provide all assumptions, methodologies, spreadsheets and data sets that were used in each such analysis.
7. All documentation of any decision by BPA to offer any additional dynamic rights or uses to PAC, which BPA executed or published in the last 24 months.
8. Please provide all analyses that BPA has performed to determine whether or not a currently projected EIM flow would impact an existing flowgate. Please describe whether BPA analyzed simultaneous resource-sink pairs and if so, which ones and with what results. Please provide all assumptions, methodologies, spreadsheets and data sets that were used in each such analysis.
9. Please provide all analyses that BPA has undertaken to estimate the costs of the systems, software, personnel hours, and any other source of cost associated with facilitating PAC's participation in the EIM. Please provide all assumptions, methodologies, spreadsheets and data sets that were used in each such analysis.
