FOIA #BPA-2014-00440-F

Dear Mr. Pierard:

Thank you for your request for records that you made to the Bonneville Power Administration (BPA), under the Freedom of Information Act, 5 U.S.C. 552. Your request was officially received in this office on Friday, January 3, 2014, and has been assigned a control number, BPA-2014-00440-F. Please use this number in any correspondence with the Agency about your request.

You requested:

1. Copy of the Midway Substation Operator's Log Book entries concerning a fault on the Toppenish 115 KV line on March 10, 1945, at about 1530 hours (PWT) and any other effects of the fault such as false trips, Relay Targets, etc.
2. A copy of the Oscilloperturbograph trace for the fault.
3. A copy of the Operators One Line Diagram close to what the 230 & 115 K bus configuration (6-230KV Line Breaker positions, 2-115KV Line Breakers and the 2- 230/115KV Banks) was on the date of the Fault.

We have reviewed your letter and have determined that it addresses all of the criteria of a proper request under the FOIA, DOE, and BPA regulation that implements the FOIA at Title 10, Code of Federal Regulations, Part 1004.

Your request for a waiver of fees is granted.

Your request is a "simple" request and BPA has 20 working-days to complete it. The due date for a response to you is Friday, February 7, 2014.

Thank you for your interest in the Bonneville Power Administration. I appreciate the opportunity to assist you. Please contact Kim Winn, FOIA Specialist, at 503-230-5273 with any questions about this letter.

Sincerely,

///signed///

Christina J. Munro
