## Reasonably Describe Records

Describe the specific record(s) you seek with sufficient detail that a knowledgeable official of the activity may locate the record with a reasonable amount of effort. Such detail should include: dates, titles, file designations, and offices to be searched.

Since most DOE records are not retained permanently, the more information you provide, the better the opportunity there is to determine if the records involved still exist and where. The FOIA clearly states that records must exist at the time the request is submitted.

Enter description:

1. Copy of the microfiche of an Electrical Engineering Drawing titled "Midway Substation - One Line Diagram" (this is probably not the exact title). I am only interested in determining the Station Configuration on March 10, 1945, so the oldest microfiche, on or after that date, on hand at Central Records, should be sufficient to track back through the Revision Notes to determine the status near the March 10 date. Probably, the only way to find such a microfiche will be to refer this request to BPA Electrical Engineering so an engineer can research the Central Records Index and look at prospective files to determine their value in this search. I am perfectly willing to make an appointment to come in to the BPA Office to work along with said engineer (or another Engineering Office person familiar with Engineering Drawings). The required drawing will show the 1944 changes for addition of the Hanford Engineering Works loads (6 -230 KV Line BKR's [2-Grand Coulee, 2-Bonneville, 2-HEW Loop], 2-230KV/115KV BNKs, and 2-115KV Lines connecting directly [presumably] to the 115KV Bus). Please call me for further directions before rejecting this request as "No Response."
