Good catch. I'll take it on as a Freedom of Information Act request. I'll reach out to the requester to see exactly what he's looking for in regard to detail. I'll let you know.

Thanks, Kim

Hello Kim:

One of my staff members received this third-party request from WECC for a "BPA Line Map". It seems like the request should have been routed through your office.

TOT uses the maps supplied by WECC that were referenced by Mr. Jensen. However, the GIS Team may produce something with more detail if your office determines this to be an actionable request.

Please let us know if your office would like to take ownership of this e-mail chain.

Thanks, Ken.

Hello,

We are non-profit organization 501(c)(3) Coalition of Eastside Neighborhoods for Sensible Energy situated in Bellevue WA.

May we please request 2 copies of WECC transmission line maps of Washington & Oregon. Of specific interest to us is the Seattle-Tacoma Detail which shown as an inset in the larger map. If you have just that inset map without the remaining Washington State it would be ideal. If not, we would prefer the large size maps of entire WECC system instead of the small maps which are very hard to follow.

Would you please send 2 copies of maps to:

C. V. Chung

Do you know if BPA would be able to furnish similar maps of their transmission grid in Puget Sound area? Who do I call or email to?

Best wishes,  
C. V. Chung
