This message was sent to the incorrect email box. I believe that they are asking for a FOIA request. Please respond.

Good Day,

I was told by one of your Library Technicians at BPA (Brad Parshalle, see below) that I needed to send an email to this email alias.

IT Motives is a local Informational Technology (IT) Staffing company, and we're asking for a Public Records request.

We would like to know the current IT Staffing companies that BPA works with, and their winning RFP's from when they were awarded to be the IT Staffing vendors to work with BPA.

Kindly do let me know if you need any clarification on our request.

Thank you,
-Tony.
