Dear Ms. Winn,

I am working on the routing of an 800 kV HVDC line in Brazil and need to calculate the electric field under the line and at edge of Right of Way. For that reason, I would like to obtain a copy of the latest version of BPA's AnyPole software program.

Unfortunately, I cannot submit an FOIA request using the online form in BPA website as the website does not provide the access from Brazil.

I copy cmfrost@bpa.gov as I am unsure of current FOIA officer.

Thank you in advance.

Yours sincerely

John F Graham
