Mr. Johnson:

This communication is a final response to your request for Bonneville Power Administration (BPA) records, control number BPA-2015-01296-F, under the Freedom of Information Act (5 U.S.C. § 552)(FOIA). Your FOIA request was received in this office on May 8, 2015, and was formally acknowledged on May 27, 2015.

### **You requested:**

“Enclosure 1: GE Hitachi Nuclear Energy, "Energy Northwest Columbia Generating Station Jet Pump 17/18 Riser Evaluation at 106% Rated Core Flow (115 Mlbs/hr)," Report 001 N6043.4 Revision 1 PLM Specification 001 N6043 Revision 4 dated February 2015 (GEH Proprietary information - Class 11 (internal proprietary evaluation document)).

It is from the April 14, 2015 letter from DW Gregoire of Energy Northwest to the NRC with subject: COLUMBIA GENERATING STATION, DOCKET NO. 50-397 DEVIATION FROM BWRVIP FLAW EVALUATION REQUIREMENTS FOR JET PUMP RISER INDICATION.

We would also like to see the redacted version of the document and other internal studies and emails relating to it.”

BPA performed a search of its files for Enclosure 1 to the April 14, 2015 letter and did not find it. Note that Enclosure 2 is the redacted version of Enclosure 1, and is thus responsive to paragraph three of your request. Enclosure 2 to the April 14, 2015 letter is publicly available at this Internet location:

In response to your request for “other internal studies and emails relating to it [Enclosure 1],” also in the third paragraph of the request, after conducting a search in the records of BPA Long Term Sales and Purchases, BPA Transmission Sales, and BPA Contract Generating Resources, BPA found no records responsive to this request.

This notification letter is our final action on this request.

**Fees:**

There are no fees associated with this request.
