RE: Second FOIA Request

Dear Mr. Frost:

I am making the following requests on behalf of CSEE (Citizens for Sane Eastside Energy), an independent non-profit organization, funded by concerned residents and run by volunteers. Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, I request all documents, electronic or otherwise, draft and final, including e-mail correspondence, presentations, correspondence, draft agreements and notes, related to the following:

- 1) As to the "U.S. Entity" as defined in the Columbia River Treaty of 1964, and as amended in 1998, please copy and produce any and all documents, including electronic documents in native file format, which either discuss or relate to the U.S. Entity's requesting Firm Transmission of Canada's entitlement to that Columbia River Treaty power by delivering it to Canada on the BPA transmission system.
- 2) If such a request was made as identified in para. 1 above, please provide copies of any and all reports done of the analyses performed to determine if BPA could honor the request for Firm Transmission service.
- 3) Please provide any and all Firm Transmission Contracts under which the BPA Transmission business line agreed to provide Firm Transmission to Canada for the U.S. Entity under the Canadian Treaty, or under any other arrangement or contract by or for BPA for any purpose.

Please consider the relevant time period for these requests to be from 1998 to the present.

Please produce responsive documents in native electronic format (as generated by the computer program that created them, as opposed to files converted to graphics format (e.g. TIFF, JPG, PNG, GIF formats) or in PDF format (unless that is the only way an electronic document has survived). As the owner of a computer forensics company I am technically versed in the identification, culling, extraction and delivery of electronic documents, and I will gladly assist you in that regard if you wish.

Finally, as noted above, CSEE is a volunteer-driven non-profit organization of citizens who want to make sure the cities whose approvals are sought to permit Puget Sound Energy's proposed "Energize Eastside" project, as well as the citizenry they serve, are adequately informed of the supposed need for and extent of the proposed Project. Accordingly, we ask you to waive any fees you would otherwise charge for fulfilling these requests.

Please let me know if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Larry G. Johnson", written over a horizontal line.
