Thank you Danna.

Mr. Parus, Thank you for your interest in the Bonneville Power Administration. I am happy to send you the AnyPole software. I am required to send it via the mail on a CD. If you can send me a good mailing address I will mail it to you on Monday, November 16, 2015.

Kim Winn

It is ours. Kim Winn usually takes care of it through FOIA requests. I just talked to her and she said that she would take care of it.

Thanks Kim!

Dear Jennifer,

Trusting that all's well on your side. It was good meeting you at the recent Cigré B2.62 meeting held in Cape Town. In relation to the discussion that we had relating to the various software available for the dc line compaction calculations, I would like to enquire if the BPA Anypole software is still available? If so what is the process to obtain it and is there any costs associated?

Thank you and kind regards

Nish
