Subject: Final Report of Cultural Resources

Hello, my name is Justing McCarthy and I am conducting tribal research and came across the following initial draft report titled, "A Regional Research Design for the Federal Columbia River Power System for the Study of Cultural Resources within the Greater Columbian Plateau" prepared by the Federal Columbia River Power System October 6, 2011. I was unable to locate the final report online and was wondering if I could please get a copy for my research. I would appreciate any cooperation you may give me in this matter. Kind Regards, Justin
