

## **Avista – Network Open Season and GI Reform Comments**

**Ed Groce**

**Date:** July 27, 2011

Avista's comments to BPA NOS Reform:

- Avista agrees with BPA's Principles for NOS and GI Reform shown on page 7 of the Initiative Overview as presented on July 20, 2011 (link attached below).
- Avista looks forward to discussions of alternatives over the coming months. Hopefully, this process will produce meaningful and constructive comments.
- In the July 20 meeting, it appeared that BPA was asking for comments on specifics to NOS redesign before any were presented. As a result, I believe that few comments were made specific to the redesign process.

Thanks for the opportunity to comment.
