

# Oversupply Management Protocol Update

Transmission Joint Operating  
Committee

May 27, 2015

# Actions To Manage Oversupply

- To the extent possible BPA will coordinate spill exchange with the Mid-Columbia projects under the Mid-Columbia Spill Exchange agreement.
- To the extent possible BPA will maximize the amount of available pump load for hours of OMP concern.
- Move non-essential generator and transmission maintenance outages out of May and June.
- Recallable energy will be offered to reduce the amount of over-generation spill and OMP.
- Will spill at the Willamette projects up to total dissolved gas (TDG) limits.
- INC/DEC will be reduced as necessary to manage TDG levels
- BPA will exercise displacement options on power purchase agreements
- BPA Power Services will offer to make advance arrangements with Transmission Customers for waiving In-Kind Real Power Loss Return obligations to reduce spill.
- BPA will coordinate reduced generation with CGS as available.
