Subject: [EXTERNAL] NT Business Practice Comment
Date: Friday, February 12, 2021 4:33:48 PM

Per section 4.5.2 of Bonneville's Business Practice Process, I request an Optional Discussion between BPA and NRU to discuss whether the *Using Secondary Service* section included in the draft NT Business Practice will significantly affect the terms and conditions of service for NT customers located in third party transmission systems. We also request an Optional Discussion between BPA and NRU to discuss potential modifications to the Columbia Market reservation point.

Thanks,

Blake Weathers
