

Transmission Services

Standard Performance Metrics

Reporting period April 1st, 2014 - June 30th, 2014

The following metrics are reported in compliance with the Standard Performance Metrics required by Title 18 CFR, Part 37.6(h).

Performance Metrics

BPA Transmission Services did not execute any Study Agreements and issued no System Impact (SIS) or System Facility Study (SFS) reports during the second quarter of 2014. During this time, BPA did not have any staff processing SIS or SFS. BPA did, however, issue Cluster Study Reports to the 2013 NOS Cluster Study participants. BPA commenced the 2013 Cluster Study beginning in September 2013, and completed the 2013 Cluster Study on April 30, 2014.

BPA has conducted four Network Open Seasons (NOS) (in 2008, 2009, 2010, and 2013), processing requests for long-term transmission service. As a result, BPA has identified several major transmission expansion projects, which are currently in various states of construction or review.

For more information about Network Open Season, refer to the Network Open Season webpage at:
